SUMMARY

Full Stack Web Developer with a background in Marketing and Management and life-long dedication to learning. Effective at combining creativity and problem solving to develop user-friendly applications. Known for taking on challenges and tackling any problem no matter the complexity.

TECHNICAL SKILLS

Programming Languages: HTML5, CSS3, Bootstrap, JavaScript, JQuery, ReactJS and Node.js

Databases: MongoDB, MySQL, and SQL

PROJECTS

Community Sidekicks | **GitHub Link:** <https://bit.ly/3CvNUFz> | **Deployed Link:** <https://bit.ly/2XNOAXY>

- Developed full stack application with multiple rest API routes
- Gained hands-on experience with multiple npm packages such as express, path, express-session, and express-handlebars in order to create a back-end server.
- Implemented Handlebars.js to create reusable web page templates in order to create a seamless front-end user experience.
- Integrated npm package sequelize in order to capture user information onto a database.

Employee-Directory_generator | **GitHub Link:** <https://bit.ly/3kpkqCY> | **GitHub repo:** <https://bit.ly/3AwwW9p>

- Utilized test-driven development (TDD) with implementation of Jest package to create a command-line application to an employee directory
- Generated test cases to confirm execution of application
- Gained experience with npm library Inquirer by producing prompts that were chained to promises which would result in an employee directory once completed

EXPERIENCE

North Texas Food Bank; Plano, TX

2017 – 2021

Team lead for Commodity Supplemental Food Program (CSFP)

- Oversaw a team of four to ensure the program met TDA designated caseload and maintained both TDA and USDA compliance.
- Created projects to expand food programs to underserved areas to increase accessibility for seniors.
